**Kickback On Honda Engine**

I have a Honda HRR2169vya mower with a GCV160 engine. Lately it has started kicking back when I attempt to start it. It seems to be getting worse and nearly broke my arm earlier this week. Typically, I see this when the timing is off, possibly due to a slipped or broken flywheel key. I pulled the flywheel and the Woodruff key is perfect. If I pull the spark plug the mower spins freely.

it is a honda gc 190 engine on a cub cadet tiller by Manage My Life. April 1st, 2012. Comment . 0 votes Thank you for your question. I am sorry you are having a problem with the tiller. Usually when an engine kicks back that hard, it is because the valves are out of adjustment. The engine has a compression release that aids in starting the engine.

**when pulling start cord it jerks back so ... - ShopYourWay**

This puts the timing out on the engine. And the reason the timing is out - the blade has hit something, causing the engine to come to a sudden stop. When you experience kickback you won't mistake it for anything else. Kickback is when you pull start your mower and the pull cord is snapped from your hand.

**Mower Engine Kicks Back When Starting | Fixed by ...**

I have a Weedeater brand rear tine rototiller. It has a 5 hp Briggs and Stratton horizontal engine. The problem is that the recoil starter will kick back and literally jerk the pull cord handle out of your hand. This is not an occasional thing, it happens every time the pull cord is pulled. If I'm not real quick and let the handle go it is very painful.
