Having an up-to-date chemical inventory is important for efficient laboratory operations, but it is essential for emergency responders. By agreement with the Baltimore City Fire Department, each JHU laboratory containing chemicals must post an up-to-date chemical inventory on the entry door. It is the lab's responsibility to maintain its inventory.

It looks like something out of a horror movie. Shreesh Mysore, an experimenter at Johns Hopkins University, is holding barn owls captive in his basement laboratory, experimenting on them, and then killing them. Mysore and his team implant electrodes in the birds' brains, lock them in restraining devices, and force them to see or hear various stimuli to monitor their reactions.
