The International Harvester Company has been building its own proprietary truck engines since the introduction of their first truck in 1907. International tended to use proprietary diesel engines. In the 1970s, IHC built the DVT 573 V-8 diesel of 240 and 260 hp but these were not highly regarded and relatively few were sold. Their DT 466 engine started in 1974 and was very successful.

List of International Harvester/Navistar engines - Wikipedia

Using a VIN from prior to 1940, your VIN should reflect IHC's sequence indicating when the company introduced the model followed by the number 501. For example, R100-501, R120-501, R130-501 and so on. When IHC introduced the S and A models in the mid-1950s, they added these letters into the identification sequence.

How to identify your DT466 engine

The International Truck was not normally stamped as to the year of manufacture before about 1969, when the "VIN" number took over from the serial number system. Consequently, while there are ways to tell what model was manufactured in what year span, nailing down the actual year and month of production is often difficult.

MAGIHC VINTAGE TRUCK General info

I volunteer time in a buddy's shop (both body and mechanical) trying to help him keep get his head out of the water financially right now. He does not have money to spend on commercially available VIN decoders. There are a LOT of free ones for cars, but I can't find any for heavy truck tractors.
