The real automotive debut of Subaru took place only in 1958. In the war-worn Japan, when there was not enough raw materials and fuel for engineering, the government adopted a law to encourage its own industry, according to which cars with a length of up to 360 cm and with a gasoline consumption of less than 3.4 liters per 100 km were practically tax-free.

After using aNUT's very helpful thread to help me re-do my vacuum lines, I decided to re-make his diagrams into more complete, readable, printable, noob-friendly forms. I used his diagrams in combination with TonyJetta's labels. They're color coded so that you don't start looking at one and accidentally look at a different one next time you take a glance.
