KOMET KK55 REED VALVE KART ENGINE

Komet. IAME Komet K25. The IAME Komet K25 is a water cooled 125cc clutched reed valve two stroke engine that can be seen as the predecessor to many modern day 125cc TaG engines. As opposed to its TaG descendants, it has no onboard electric starter. Since it is a clutched engine, an external starter is needed, similar to the ones used for JICA engines. Other than that it is very similar to the ...

The IAME KA100 is a 100cc air cooled Reedjet engine specifically designed for Karting Australia, and is intended to be taken to the world market by IAME. The bottom end of the engine has the robustness of a 125cc engine while the cylinder and head are made to 100cc specification, providing a relatively unstressed and reliable power plant.

IAME KA100 Reedjet Details - Remo Racing | Australia

Finally some reed valves have been produced with different shapes, such as double petals, to obtain best performance at different revs of the engine. Functioning of reed valves. Reed valves are mounted inside the reed block that is usually positioned in kart engines on the front side of the crank-case.
