Kawasaki Engines - The Core Strength

I don't know if my comment is applicable to your situation but here goes - I have a LX178 mower that uses a 15HP 2 cylinder liquid cooled Kawasaki engine with the radiator mounted on the top of the engine. I've had this mower for nearly 10 years and it gets used very heavily.

Kawasaki engine problems - opinions please - Bob Is The ...

The power rating of this engine is the Net power rating tested on a production engine and measured in accordance with SAE J1349. Actual power output will vary depending on numerous factors, including, but not limited to, the operating speed of the engine in application, environmental conditions, maintenance, and other variables.

FD620D | Kawasaki Engines

I have a Scag Wildcat 61" with a Kawasaki 26hp Liquid Cooled Engine (FD731V) It fires up and runs and cuts good for a little bit and then starts sputtering and will eventually die out. Then if you choke it again it will eventually start back up and repeat the process. I have added SeaFoam to fuel to clean carb, changed all fuel lines and filter.
