Step 3. Locate the high limit switch for your oven. On most Dacor ovens it will be installed along the top edge of the oven. Consult your Dacor oven user manual to find the switch for your model. The switch will be about the size of a dime and have wires running to and from it. It will have a small red button on top. This is the reset button.

### **How to Reset the High Limit Switch on a Dacor Oven | Hunker**

Our Dacor Millennia wall oven will not heat. There is a manual reset button behind the vent under the touch pad. Turn off the power. Open the door. Remove the vent. Behind the latch is a two wire switch. press the red button on it until it clicks. reassemble and turn on power. It over heated when the power went off by stopping the cooling fan.

### **Where is the reset button on the Dacor ERSD36 oven, I - Fixya**

I know our Dacor oven has a reset button as a technician showed.... Open the oven door and remove the vent across the top of the oven where the door latch assembly is. Remove the vent panel and located just behind the latch assembly is a 1" round black and silver device with a tiny red button on it. Push the red button hard until it clicks and that should reset the switch.
