Know what price you should pay to get your vehicle fixed. The average cost for a Volkswagen Jetta engine coolant temperature sensor replacement is between \$90 and \$158. Labor costs are estimated between \$35 and \$78 while parts are priced between \$55 and \$80. Estimate does not include taxes and fees.

### **Volkswagen Jetta Engine Coolant Temperature Sensor ...**

The engine coolant reservoir is a storage tank for excess engine coolant, and allows engine coolant to flow in and out per the needs of the engine cooling system. How does the coolant reservoir work? As the engine coolant temperature rises, the coolant expands, and the radiator cap allows excess pressure to bleed off.
