Based on over 40 years of research from David Kolb, Ph.D., the learning style inventory describes the way you learn and how you deal with day-to-day situations. Learning can be described as a cycle made up of four basic processes. The LSI takes you through those processes to give you a better understanding of how you learn with implications for:

Kolb believed that we cannot perform both variables on a single axis at the same time (e.g., think and feel). Our learning style is a product of these two choice decisions. It's often easier to see the construction of Kolb's learning styles in terms of a two-by-two matrix. Each learning style

represents a combination of two preferred styles.
