I have a Kawasaki FC540V engine on my John Deere 265 Garden Tractor. Overall the engine is in good condition, but it really struggles to get started. I have to play with the choke and the throttle and sometimes spray starting fluid in the intake just to get it to run. When it is running, it runs very well. Sometimes when going from low throttle to high throttle, the engine backfires and quits.

Anyone know of a old carb off a Kawasaki FC540V 17hp single cylinder I could buy? I've got a good engine but the previous owner tried to remove the main jet, damaged it in the process enlarging the main jet hole, now my engine runs way rich. It's damaged in such a way I can't get it out, it appears cross-threaded, etc.
