I have a Briggs & Stratton 18.5 HP engine in a Z225 zero turn John Deere lawnmower. I was wondering if it would be possible to swap the engine to a Briggs & Stratton 20 HP 40G777-0123. My engine went out and while browsing online I noticed that the B&S 20HP was on sale for slightly less than the 18.5 Would there be any major hurdles to swapping out for this option?

I have an 18.5 Briggs engine on a John Deere Z225. I appears that it has emptied the gas tank, while just sitting. I tried to start the mower and it would not start. The engine would turn over once and stop. I installed a new battery and there was no change. It looks like gas has drained out of the muffler and there is gas in the oil.
