The Navistar DT engine family is a line of mid-range inline-6 diesel engines. With horsepower ratings ranging from 170 hp (130 kW) to 350 hp (260 kW), the Navistar DT engines are used primarily in medium-duty truck and bus applications such as school buses, although some versions have been developed for heavy-duty regional-haul and severe-service applications.

I talked to my local expert about the DT530. He has mostly retired for wrenching in a Navistar dealer and equipment but still goes in for Road Ranger repairs on call. He says the crank and block are different and heavier duty in the DT530. All electronic engine, with fantastic computer aided diagnostics available at most dealers.

Is this the same engine? or are there differences in the two? My truck came with a Dt530e and the new one I found is only called a Dt530, both engines specs are pretty much the same and the emission standards are of the same year. I'll be calling the seller monday morning for all this info but this waiting around bugs me. thanks for any help!

Any tandem around here with a small engine 8-9 tons is the most you want to put on the truck. One of the P+D guys here had a International tandem with a 22 foot cube box with 530 power the truck was geared so low it was a POS to drive. I would find something else, just because it is selling cheap doesn't make it worth buying.
