Here are my solutions to various problems in David J. Griffiths's excellent textbook Introduction to Quantum Mechanics, Second Edition. Obviously I can't offer any guarantee that all the solutions are actually correct, but I've given them my best shot. After some consideration, I've decided to repost this index to the solutions.

David Griffiths: Introduction to Quantum Mechanics

Griffiths's quantum mechanics is a spectacularly straightforward approach to a complicated subject matter, with troves of information. Problems are laid out to often give you **precisely** what you need to solve a problem (for example, there was even a reminder on how to complete the square to simplify the integral on one problem).
