P0325 is a powertrain OBDII trouble code that has the same meaning for the Honda Accord as it would any other vehicle. By definition, it means that the vehicles ECM/PCM isn't getting the proper signal to or from the knock sensor. Clearing this code typically requires a new knock sensor or correcting a short or break in the wiring harness.

SOLVED: Knock sensor for Honda 1998 Accord LX - Fixya

The knock sensor is there to detect combustion chamber predetonation or (knock). If it detects it (it usually happens because low grade fuel was used or because of a problem with the cylinder head), it instructs the engine to retard the ignition timing (the spark plug will spark closer to top dead center of the piston stroke).
