The Astra Ishida scale is a counter scale printer that can weigh and print out labels. Establishments such as delis or supermarkets will have a separate scale where the cashier would punch in the PLU(Price Look Up) code of the item, weigh the item, and then print out a barcode for the weighed item.

performed by dealers and not by Astra end users. Normally, these operations are hidden from the user, but they can be accessed by running AstraLink in dealer mode. This manual describes the operation of AstraLink in dealer mode. It is provided as a supplement to the standard AstraLink User Guide, which describes the general operation of AstraLink.
