Kubota disclaims all representations and warranties, express or implied, or any liability from the use of this brochure. For complete warranty, safety and product information, consult your local Kubota dealer and the operator's manual. Power (HP/KW) and other specifications are based on various standards or recommended practices.

Specifications - Kubota

The D902 engine delivers the highest output within the Kubota Super Mini Series engines. By expanding the bore and stroke, Kubota increased engine displacement, while maintaining the same footprint as the D722 engine. By adopting an extended shallow oil pan, the engine height is lower than the D722 engine, providing a compact engine package.

Engines were added to Kubota's numerous product line in 1922 when we researched and developed the agriculture and industry engine Type A, with 3 horsepower. Our engines were then expanded for various usages, and engines of high output, compact and lightweight, have gained a high level of trust in the global market.
