My series of public commentaries on WYPR continues here. Here at Goucher, we require all students to study abroad before they graduate. We do this in part because employers want graduates who can navigate working with people from different cultures and backgrounds, but also because study abroad provides an almost unique opportunity for self-discovery, reflection, and growth.

This paper provides a critical review of measures of social and emotional development in early childhood for use within large-scale national surveys of child well-being and evaluations of early childhood interventions and initiatives.

Review of measures of social and emotional development ...

In mathematics, a function was originally the idealization of how a varying quantity depends on another quantity. For example, the position of a planet is a function of time. Historically, the concept was elaborated with the infinitesimal calculus at the end of the 17th century, and, until the 19th century, the functions that were considered were differentiable (that is, they had a high degree ...
