the early w/c ital were used the A/c crank cases and they had problems with the barrel stud spacing as they were inside the water jack O-ring so tended to leak. They did a revised engine with the cylinder studs outside the water jacket O-ring which clamped everything together better. I used to run Itals and in its day the MV21 was an awesome motor.

So we got the kart on time, completely put together, and ready for the track. This was completely unexpected, and a great surprise. Not to mention, Holden found a way to save me money (which in this sport, every dime saved is a bonus). So we got the kart, my kid slipped in the seat and he fit perfectly. Seat size and location was ideal.
