Submitted for your consideration is a good used working pair of Kenwood stereo components.

Included are a KA-127 stereo integrated amplifier and a KT-57 AM/FM stereo tuner. These items date to around 1989. The KA-127 is fairly powerful unit and according to data that I was able to find online, it is rated at a healthy 125 watts per channel output.

Just acquired a Trio KA-5300 integrated amp and I cant seem to find the user's or service manual for that amp. I'm thinking would this Kenwood KA-3500 be the closest thing to the seemingly earlier Trio KA-5300? They have the same power rating, size and weight. The controls were just somehow rearranged.
