The 4020 still came with Deere's dependable Syncro-Range transmission as standard equipment, and the Power Shift cost an additional \$630.00. To compensate for the additional horsepower that the 4020's revamped engine put through the powertrain, Deere strengthened both the Syncro transmission and the final drives.

The 4020 was an agricultural tractor model made by John Deere from 1964 to 1972. It replaced the nearly identical 4010 that had been introduced with Deere's New Generation series in 1960 and offered a number of improvements over the previous model including more horsepower, heavier rear axles, and a differential lock. The 4020 has a six-cylinder engine tested at 84 drawbar and 96 PTO horsepower.
