The History of the Jet Engine. Von Ohain is considered the designer of the first operational turbojet engine, while Whittle was the first to register a patent for the turbojet engine in 1930. Although von Ohain was granted a patent for his turbojet engine in 1936, it was von Ohain's jet that was the first to fly in 1939. Whittle's jet took off for the first time in 1941.

Before the invention of the gasoline-powered engine, mechanical transportation was fueled by steam. In fact, the concept of a steam engine pre-dates modern engines by a couple thousand years as mathematician and engineer Heron of Alexandria, who lived in Roman Egypt during the first century, was the first to describe a rudimentary version he named the Aeolipile.
