To my eye the Knucklehead motor is one of the best looking to ever roll down the road. So for me a bike like this is about as good as it gets when it comes to a resto custom that you can drool over and yet ride reliably as well. This entire project began with an old photo that Jesse and Tim from The ...

The Evolution engine (popularly known as Evo) is an air-cooled, 45-degree, V-twin engine manufactured from 1984 by Harley-Davidson for the company's motorcycles. It was made in the

1,340 cc (82 cu in) displacement for Harley-Davidson Big V-twins bikes, replacing the Shovelhead engine until 2000 when the last EVO was placed in a production factory custom FXR4 (FXR2 and FXR3 were the first CVOs).

After researching parts sources for an XR-750 project of mine in the late Eighties, in 1992 and 1993 I wrote a book called the Harley-Davidson Performance Parts Directory, which remains a pretty good reference source for Harley-Davidson speed equipment. After selling 7,000 copies, the book went out of print.
