Introduction To Graph Theory Douglas

Introduction to Graph Theory is somewhere in the middle. It is an adequate reference work and an adequate textbook. Steering a middle course, the book is bound to dissatisfy people with specific needs, but readers needing both a reference and a text will find the book satisfying.

Introduction to Graph Theory (2nd Edition): Douglas B ...

Graph theory is a fantastically interesting subject, and there's a lot of potential for a great book on this subject, but I found this particular book to be fairly mediocre. The explanations, for the most part, are fine, but the examples for individual topics are frequently terrible, and the explanation of the proofs could use some additional love.

Introduction to Graph Theory by Douglas B. West

Main Introduction to graph theory. Introduction to graph theory Douglas B. West. This is the first Graph Theory book I've read, as it was assigned for my class. Therefore, I don't have an expansive frame of reference to tell how this compares to other textbooks on the subject.
