So for whom it may concern I've seen checklists for swaps like this but I thought I would give my .02 from having done this personally. For the H23a into a 93-97 accord it's not just about a motor and a car, in a lot of ways theres kind of a theory-crafting that goes into it. For this swap, the plan was always to run it OBD1 off of a P28 ECU.

Engine numbers, some states require documentation of engine swaps, like CA. If I remember correctly, you can swap a newer engine or same year engine as long as it meets all FED laws and state emissions. Verified by docs. As far as different engines, CA says no with exceptions....what those are I have no idea as they always seem to change.
