Just exercise just what we allow below as capably as evaluation international truck engine problems what you considering to read!

International Truck Engine Problems

International was shipping in new crate engines for these trucks, and telling us to send the old ones back to Navistar's Research department. BTW, all these engines were VT365's, which was the same as Ford's new 6.0 Powerstroke, and Ford bought back the first 500 trucks that were sold with that engine...

The International Harvester Company (IHC) has been building its own proprietary truck engines since the introduction of their first truck in 1907. International tended to use proprietary diesel engines. In the 1970s, IHC built the DVT 573 V-8 diesel of 240 and 260 hp (179 and 194 kW) but these were not highly regarded and relatively few were sold.

I have a 2006 International 4300 with a DT466. The truck works great when it works. It originally was towed in because the engine shut off on the highway. Our original diagnosis pointed to the IPR. We replaced it and it worked great. We did find small metal shavings in it. Replaced filters, etc. It was towed in a second time about a week later.
