value, in using methods and ideas from other fields to improve empirical work in economics, he does warn of the risks involved in uncritically adopting the methods and mind set of the statisticians: Econometric methods uncritically adapted from statistics are not useful in many research activities pursued by economists. A theorem-proof format is

Solutions Manual for Econometrics

An innovative feature of this book is the detailed descriptions of several pieces of applied econometric research. These applications use real-life data contained on the data disk which accompanies the text, giving students a hands-on experience working with data sets. This book provides a compact, thirteen-chapter presentation.
