Studying physics again, after I got doctoral degree in mathematics, I have had to study Lagrange's equations and Hamiltonian mechanics. Instead of re-reading Simons' book or trying Goldstein's book, I chose J. Taylor's Classical Mechanics for my self-study, because the Amazon.com reviews on Taylor's book were of full praises.

I am a big believer that students learn the most when they have access to the solutions manual for their texts. Grading and return of homework by teaching assistants takes too long to be useful, and the solutions to problems are most helpful IMMEDIATELY after solving the problem, so the method you used is still fresh in your mind. In light of this, I am looking for the solutions manual to ...
