Krone tines are stong using 3 coils and 10.5mm rods. The three larger models Swadro 38 – 46 use 4 double tines per arm while the Swadro 35 offers 3 double tines per arm. For fine tuning of our rakes, just adjust the pitch of the rotor on the rotor axles which offers several adjustments to allow for the cleanest raking results.

Krone 46t service question - posted in Machinery: Bought a 2013 Krone 46t rotary rake. The manual is confusing to me and the dealer lol. I am trying to figure out if I should change the grease in the main hub that rotates the arms. The manual says to add 1.5 liters semi fluid grease to the hub through the breather hole. It then goes on to say that will last the life of the rake.
