- [Instructor] Let's get started by taking a quick look at the MATLAB interface. The most prominent window is here in the center. That's the command window. This is similar to other command line interfaces that you might be used to using from other IDEs. We can do things here like do one plus two and MATLAB will return the answer. It's three.

- The company I worked for planned to announce a major change in employee benefits. The manager I coached was tasked with the tough announcement. Tough because the rumor mill was that the benefits change was not good, negative. I advised him to listen to concerns and be prepared for all questions. His task was to communicate with empathy to this skeptical audience, and not try to pitch the ...
