CS161 Midterm Practice The real exam will consist of a number of code writing (about 4) questions and is to be completed in 50 minutes. For each problem, assume that all necessary include statements are in place as is main. i.e. assume your job is just to fill in the comment below:

CS161 Midterm Practice - Chemeketa Community College

It's been a a year since I've taken CS161, but I remember the best way to review for the exams was to: do all of the practice exercises for each section, answer the questions in the back of the chapter, and practice hand tracing through programs! When I took it much of his tests were walking through code and stating the expected output.

What to study for CS161 Exams : OSUOnlineCS - reddit

CS161 Practice Final Assume that any libraries you need have been imported. You should only write the required code for a problem… don't declare main() or do any other "boilerplate" work. The questions below are intended as practice writing code by hand and as a model for the style of question you can expect.
